Professional Summary

Data Analyst with **2 years of experience** in data analysis, machine learning, and business intelligence to support fraud detection, demand analysis, product marketing analysis and operational decision making. Skilled in **SQL**, **Python**, **Power BI**, **Excel**, **AWS**, **Streamlit** and **Oracle PL/SQL**. Experienced in **customer call analytics**, **product marketing analytics**, improving the **outlier claims models (OCM)**. Skilled in automating interactive reports and test suites, conducting exploratory data analysis, and collaborating with cross-functional teams to deliver high-quality analytical solutions.

Work Experience

VHI INSURANCE – Data Analyst Intern May 2025 – Aug 2025
Dublin, Ireland

- Analyzed **30K insurance claims** records, identifying **drug dosage irregularities** across **hospitals in Ireland** to support **fraud detection** to enhance Outlier Claims Models (OCM) of VHI.
- Developed **Power BI dashboards** for the **Special Investigation Unit (SIU)**, enabling interactive monitoring of outlier claims and improving **claims review** efficiency by **20%**.
- Analyzed **2,000+ travel insurance** and **cancellation** related **customer calls** using LLMs (Anthropic Haiku) within an **AWS pipeline** (S3, Lambda, Transcribe, Bedrock) to extract actionable insights**.**
- Developed an **automated VBA reporting** tool integrated with **Oracle PL/SQL**, reducing manual workload and improving the accuracy in **Treatment Abroad reporting**.

ALEMBIC PHARMACEUTICAL – Market Data Analyst Dec 2022 – Apr 2024
Shillong, India

- Analyzed **regional prescription** and **sales** data of Azithral (Azithromycin) and Leveta-M (Levocetirizine & Montelukast), helping identify target segments and high-potential prescribers.
- Applied **statistical analysis** and **machine learning** techniques **(clustering, regression)** to evaluate prescription insights for promotional strategies.
- Collaborated with **cross-functional teams** (sales & marketing teams) to integrate research findings into strategy that resulted in **110% increase in one- quarter**.

Core Skills

- **Business Intelligence**: **Power BI** (Data Modelling, DAX, Power Query, Dashboard design) and **Tableau**.
- **SQL** (Windows Functions, Joins, CTE, Stored procedures), **ETL** processes, and **data integration**.
- **MS office Suite** and **Advanced Excel** (VBA, Pivot table, advance custom formulas).
- **Python:** (NumPy, Pandas, EDA), Predictive Modelling and **machine learning** applications.
- Cloud Services Data Warehousing and ETL: **Snowflake**, **SSIS**, **SSRS Databricks**, **AWS** (S3, Lambda, Transcribe, Bedrock).
- **CRM**: **Salesforce.**
